

## The Herzfeld Caribbean Basin Fund, Inc.

### Announces Cash Distribution

MIAMI BEACH, FL., December 20, 2024 –The Herzfeld Caribbean Basin Fund, Inc. (NASDAQ: CUBA) (the “Fund”) today announced that the Fund will pay a cash distribution pursuant to the Fund’s managed distribution policy (the “Policy”).

#### Distribution in Cash:

The Fund has announced a distribution to be paid as follows:

Declaration Date	Ex-Date	Record Date	Payment Date	Per Share
12/20/24	12/31/2024	12/31/2024	01/13/2025	\$0.2325

The distribution for stockholders will be paid in all cash.

The \$0.2325 per share amount announced today reflects a distribution of 9.69% based upon the market price per share of the Fund and 7.22% based upon the net asset value per share of the Fund, each as of December 19, 2024. No conclusions should be drawn about the Fund’s investment performance from the amount of the Fund’s distributions or from the terms of the Plan.

#### Details regarding the Managed Distribution Policy:

Under the Policy, the Fund will distribute all available investment income to its stockholders, consistent with its investment objective and as required by the Internal Revenue Code of 1986, as amended (the “Code”). **The amount distributed per share is subject to change at the discretion of the Board.** If sufficient investment income is not available, the Fund will distribute long-term capital gains and/or return capital to its stockholders in order to maintain its managed distribution level. The Fund is currently not relying on any exemptive relief from Section 19(b) of the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund may make additional distributions from time to time, including additional capital gain distributions at the end of the taxable year, if required to meet requirements imposed by the Code and/or the 1940 Act. Please note that for stockholders enrolled in the Fund’s Dividend Reinvestment Plan (“DRIP”), the distribution will be reinvested in additional shares of the Fund as described in the DRIP.

The Fund expects that distributions under the Policy will exceed investment income and available capital gains and thus expects that distributions under the Policy will likely include returns of capital for the foreseeable future. A return of capital may occur, for example, when some or all of a stockholder’s investment is paid back to the stockholder. **A return of capital distribution does not necessarily reflect the Fund’s investment performance and should not be confused with ‘yield’ or ‘income.’ Furthermore, a return of capital distribution is not a guarantee of future distributions or yield.** Any such returns of capital will decrease the Fund’s total assets and, therefore, could have the effect of increasing the Fund’s expense ratio. In addition, in order to maintain the level of distributions called for under its Policy, the Fund may have to sell portfolio securities at a less than opportune time.

The following table sets forth the estimated amounts of the current distribution and the cumulative distributions paid this fiscal year to date from the following sources: net investment income, net realized capital gains and return of capital. All amounts are expressed per common share.

	Current Distribution	% Breakdown of the Current Distribution	Total Cumulative Distributions for the Fiscal Year to Date	% Breakdown of the Total Cumulative Distributions for the Fiscal Year to Date
Net Investment Income	\$0.00	0%	\$0.00	0%
Net Realized Short-Term Capital Gains	\$0.00	0%	\$0.00	0%
Net Realized Long-Term Capital Gains	\$0.00	0%	\$0.00	0%
Return of Capital	\$0.2325	100%	\$0.2325	100%
Total (per common share)	\$0.2325	100%	\$0.2325	100%

The primary purpose of the Policy is to provide stockholders with a constant, but not guaranteed, fixed minimum rate of distribution (currently set at the annual rate of 15% of the Fund's net asset value as determined on June 30, 2024). The Board recently amended the Policy to maintain the 15% annual rate of distribution, but at quarterly, semi-annual or annual periods of distribution to be reviewed by the Board each quarter. The purpose of the modification is to allow the Fund to maintain its 15% annual distribution of NAV, but provide flexibility in determining the timing of those distributions in order to account for required year-end regulatory distributions of capital gains necessary to maintain the Fund's tax-free status. The Fund cannot predict what effect, if any, the Policy will have on the market price of its shares or whether such market price will reflect a greater or lesser discount to net asset value as compared to prior to the adoption of the Policy.

**The amount distributed per share is subject to change at the discretion of the Board.** The Policy is subject to ongoing review by the Board to determine whether it should be continued, modified or terminated. The Board may amend the terms of the Policy, suspend the Policy, or terminate the Policy at any time without prior notice to the Fund's stockholders if it deems such actions to be in the best interest of the Fund or its stockholders. The amendment or termination of the Policy could have an adverse effect on the market price of the Fund's shares. On May 9, 2024, the Board approved certain modifications to the Policy and extended the Policy through June 30, 2025.

With each distribution that does not consist solely of net investment income, the Fund will issue a notice to stockholders and an accompanying press release that will provide detailed information regarding the amount and composition of the distribution and other related information. The amounts and sources of distributions reported in the notice to stockholders are only estimates and are not being provided for tax reporting purposes. The actual amounts and sources of the amounts for tax reporting purposes will depend upon the Fund's investment experience during its full fiscal year and may be subject to changes based on tax regulations. The Fund will send stockholders a Form 1099-DIV for the respective calendar year that will tell them how to report these distributions for federal income tax purposes. **Stockholders should consult their tax advisor for proper tax treatment of the Fund's distributions.**

Under the Policy, the Fund will distribute all available investment income to its stockholders, consistent with its investment objective and as required by the Internal Revenue Code of 1986, as amended (the "Code"). **The amount distributed per share is subject to change at the discretion of the Fund's Board of Directors ("Board").** If sufficient investment income is not available, the

Fund will distribute long-term capital gains and/or return capital to its stockholders in order to maintain its managed distribution level. The Fund is currently not relying on any exemptive relief from Section 19(b) of the Investment Company Act of 1940, as amended (the “1940 Act”). The Fund may make additional distributions from time to time, including additional capital gain distributions at the end of the taxable year, if required to meet requirements imposed by the Code and/or the 1940 Act.

Future distributions by the Fund may be made in cash or using a combination of shares of common stock and cash, as shall be determined from time to time by the Board.
